

Art in harmony
with nature.

Landscape Architecture, Contracting and Maintenance

HOW TO APPLY: Please e-mail your resume and portfolio to slecy@scottbyron.com

ABOUT SCOTT BYRON & CO:

Celebrating 35 years in business, Scott Byron & Co. is a leading, Chicago-area landscape firm with a longstanding reputation for creating elegant, outdoor environments for both residential and commercial properties. The company's 275 employees design, build and maintain extraordinary environments while creating an expression of *Art in Harmony with Nature*. Visit www.scottbyron.com to learn more.

LANDSCAPE ARCHITECT:

The full time, salary exempt Landscape Architect works with all areas of the company – sales, estimating, construction, and property improvement – to make sure projects are designed and installed to the highest possible standards.

TASKS:

- Support Landscape Designers, Surveyor, and Architects with all phases of a project.
- Hand graphic and computer-generated design support.
- Create with AutoCAD, Adobe, Microsoft, and SketchUp.
- Research product materials for information regarding weight calculations, construction methods, cost comparisons, etc.
- Assist in surveying, site inventory and analysis.
- Assist designers with permits including city code research, calculations, and applications.
- Contribute to residential and commercial landscape designs and drafting.
- Communicate with Sales and Estimating teams, Project Managers, Subcontractors, and Clients to develop a design that meets the client's needs and wants.
- Work with Project Managers and Subcontractors to ensure design intent is followed through the entire installation phase. Meet on-site and in-office to work through construction details, problem solving on-site issues, and any other design components.
- Travel to jobsites to assist surveyor / designer to measure and analyze the site to evaluate it based on the project criteria.
- Communicate and meet with subcontractors and clients as needed for project development (occasional evening meetings, but generally during office hours).
- Contribute to development of department procedures and operating standards.
- Set priorities and meet deadlines in an organized, timely manner.

QUALIFICATIONS:

- Bachelor's Degree in Landscape Architecture or Horticulture with a focus on design required and one to three years related experience and/or training.
- Licensure as a Landscape Architect or intention to obtain licensure in Illinois and/or Wisconsin is a plus
- Strong understanding and practical application of the technical construction aspects of high-end landscape installation.
- Interested in hardscape and landscape design for residential and commercial properties.
- Knowledge of plant materials and hardscape.
- Proficient in AutoCAD is required, experience in SketchUP, Photoshop, and InDesign is a plus.
- Strong hand graphics is a plus.
- Has own transportation to participate in jobsite activities.
- Ability to meet short and long-term deadlines to ensure projects stay on track and meet client expectations.
